Business Farmers Like NEW IDEA Spreaders

Spreaders

Farming is fast becoming a business. Good farmers appreciate the value of good tools and machinery. That machine, which does the best work in the shortest time at the smallest expense is the business farmer's choice.

New Idea Spreaders will thoroughly pulverize and spread more of any kind of manure in less time than any other machine. They will spread manure wider, more evenly and at the least cost of operation.

WHY NEW IDEA SPREADERS ARE THE BEST

They are of simplest construction, which assures a durability not found in more complicated machines. They have a wide range of feeds, operated by the simplest of all feeding mechanisms. The Gearless drive is the best way in which power is transmitted direct without the wear on gears. It saves horses, machine and men's temper. The New Idea Spreader is the only machine with 2 pulverizing cylinders, besides a patented distributor. Learn all about this fine spreader by examining it at
